Tools / Deployment: Git, GitHub, VS Code, Postman, Vercel, XAMPP
Core Concepts: OOP, DBMS, DSA
Languages: English, Hindi, Marathi

EXPERIENCE

Full Stack Developer (Android) Intern — Mountreach Solutions Pvt. Ltd., Amravati (Remote) **Jun 2026 – Present**

- Developing an e-learning Android application using Java, Kotlin, XML, PHP, MySQL and REST APIs, with user authentication and course management.
- Built a WhatsApp-style chat app covering user authentication, real-time messaging and chat UI design; worked across Android Studio, debugging and the full mobile app workflow.

PROJECTS

Smart Campus Issue & Facility Management System | Android, PHP, MySQL | Live Demo

- Developed a campus platform for reporting and tracking Wi-Fi, classroom, electrical, and facility-related issues.
- Integrated an Android app, PHP REST APIs, and an admin dashboard featuring issue management, technician assignment, analytics, and notifications.

E-Learning Android Application | Java, Kotlin, XML, PHP, MySQL | GitHub

- Building an Android-based e-learning platform with user authentication, course management, and PHP-MySQL backend integration.
- Developed as part of the Full Stack Android Development Internship at Mountreach Solutions.

WhatsApp Clone Android Application | Java, Kotlin, XML

- Developed a messaging application with user authentication, real-time chat functionality, and a WhatsApp-inspired user interface.

Inward & Outward Correspondence Management System | PHP, MySQL | GitHub

- Developed a web-based correspondence management system to record, track, and manage incoming and outgoing official letters.

EDUCATION & CERTIFICATIONS
